

Innovad® is a modern and dynamic company situated on the border between Belgium and Holland. We produce premixes and complementary feeds and specialty products for use in animal feed.

Innovad® delivers a total package to the customer, including sourcing and formulation advice, production, documentation, registration and logistics.

Due to our growing activities, we are currently looking for:

ALLROUND OPERATOR

You will be part of our production team and you will be responsible for producing specialised mixtures for the animal feed industry.

You will follow the entire production process from A to Z. You take care of the supply of raw materials and packaging material. You set up the machine independently and ensure that it can start up effortlessly. If necessary, you can solve minor technical problems independently. You have an eye for detail regarding the end product for our customers.

After a training period, you will start up independently in the production process.

Profile:

Essential are strong motivation, a good learning ability, communication, punctuality, safety, neatness and quality.

- TSO level or equivalent through experience
- Having a valid forklift truck certificate and experience is a plus
- You are flexible in terms of job content and working hours
- You can communicate fluently in Dutch and are able to understand production instructions
- You can handle tough physical work
- You can work independently but you are a team player
- You respect the machines/ material you work with
- You have a great sense of responsibility and precision
- You are aware that you will be active in the food sector and you take into account the quality standards and laws that are involved

Offer:

Early start date, career opportunities, good salary and meal vouchers, ADV days.
