

Innovad® is a modern and dynamic company situated on the border between Belgium and Holland. We produce premixes and complementary feeds and specialty products for use in animal feed.

Innovad® delivers a total package to the customer, including sourcing and formulation advice, production, documentation, registration and logistics.

Due to our growing activities, we are currently looking for:

WAREHOUSE WORKER

You will be part of our logistics team. Your duties will mainly consist of loading and unloading trucks.

Together with your colleagues you rotate sufficiently so that the necessary variation in your tasks is guaranteed. Loading and unloading, filling out correct documents, formatting labels and sampling are among your responsibilities. Basic knowledge of PC and office package (word - excel) is recommended.

You are our last link in the process before our products arrive at our customer's, so you must have a great sense of responsibility.

Profile:

Essential are strong motivation, a good learning ability, communication, punctuality, safety, neatness and quality.

- Knowledge of ADR / dangerous goods in general
- You are able to work independently but you are a team player
- You are eager to learn but you can also tolerate criticism and use it to work better
- You are flexible in terms of job content and working hours
- You have a valid forklift truck license and have sufficient forklift experience
- You can communicate fluently and understand instructions in Dutch
- Experience in logistics is a must. Especially when it comes to **loading and unloading trucks and containers**
- You will be active in the food industry, where order, cleanliness and structure are very important

Offer:

Early start date, career opportunities, competitive salary and meal vouchers, ADV - days.
